BE MORE EFFICIENT

With Go-Connect Webmeeting you will get a solution, that save you values like time and money to held meetings, quarterly sales presentations or for project meetings with your client.

COLLABORATE INSTANTLY

Our Web meeting Solution allows to collaborate onsite with your audience anywhere and the result is saving money for traveling but generating instantly feedback. No matter if you use it internally to train your employees, for education or presenting a new product to your partners or customers, you can interact with them directly via Video, Voice or Chat.

IT JUST WORKS OUT OF THE BOX

There are no additional requirements or installations for you as presenter or to your audience. All you need is a internet broadband connection and Web Browser such as Safari, Google Chrome or Firefox (in fact, it works with any browser you like, but choose we like the fasted ones).

IT MAKES FUN - BECAUSE ITS SUPER FAST

We at Go-Connect has our own rack floor and are interconnected via several fibre backbones to the Internet. And since we knew what we are doing, our hardware equipment serves the solution with speed. So you don't become tired witch long loading cycles for you or your audience.

Our latency is worldwide very low and offers very low time shift between your screen action while Slideshow and the screen output at your audience screens:

- Switzerland: ≈ 80 Milli Seconds*
- West-Europe: ≈ 160 Milli Seconds*
- East-Europe: ≈ 350 Milli Seconds*
- US & Pacific: ≈ 500 Milli Seconds*

*All measurements are based on 25 page PPT with 50 Attendees, based on the Go-Connect Enterprise Solution.
